

Promised Land

**Intro (D-E-D-C-A – Riff, Am
D E D C A G – Riff, G) 4x**

Verse

A (same as intro)

Since I was a boy, I heard it from my mother
Live the best you can, take care of one another
The reward for that is great, it'll get you into heaven
But now I'm not so sure, that it can be proven

C Em G

Take me by the hand

C Em G

Help me understand

C Em G

Is there a promised land?

I never understood, the concept of forever
It's too much to comprehend, I start to shake and shiver
I seem to be afraid, amid all my laughter
I need to figure out, is there an ever after.

CHORUS

LEAD (Intro/Verse) 4X

When my father passed away, I had a premonition
He came inside my dream, with an update on my condition
Was he really there, was it predetermination
Or could it have been, my imagination.

CHORUS

Now that I am grown, I still have nagging doubt
I'm still questioning, what this life is all about
I try to free my mind, not worry about tomorrow
I have a moral code, that's what I try to follow

CHORUS 2X
