

# *Soundtrack of my Life*

A=7 B4 Phase No distort until lead

**Am Em**

I wrote the songs

**Am Em7**

Thought they'd be my future

**Am F**

But all I heard was no

**F**

It gave me

**G**

My reality

That I'm trapped in

**Am Em**

Play the soundtrack of my life

**F**

And you'll hear bitterness

**Am Em**

Play the soundtrack of my life

**F**

And you'll hear rage

As time passed by

My body felt like a stranger

Doctors telling me

I may die

Why, oh why

Is this happening?

Play the soundtrack of my life

And you'll hear sadness

Play the soundtrack of my life

And you'll hear fear

**G F**

Play the music from the start

**G F**

Or select the ones you want

**G F**

You will hear the echoes of my heart

**F**

The wheel goes round and round

**G**

Hear the sounds

Of my journey

## **LEAD BREAK (CHORUS)**

Through all these years

She stood next to me

Always and forever

She gave to me the one

Who showed me

What it means

To be happy

Play the soundtrack of my life

And you'll hear happiness

Play the soundtrack of my life

And you'll hear love
