

Wild One

Intro (G-E-E-E-E, G-E-E-E-E, G-E-E-E-E, G-A) 2x

Verse (Same chords as Intro)

Doesn't happen often enough when we get wild and rough
Like free spirits are supposed to do
However long the game some things stay the same
Yet we come out feeling black and blue
So much of our history is filled with misery yet we laugh at our own defense
Everyone makes a choice and ignores the voice someday this will all make sense

Bridge

D C D C
And if the things that we do appear to be strange I cannot apologize
D C D C
For the lives that we lead are the lives that we choose for this there is no compromise

Repeat Intro

Verse (Same chords as Intro)

You won't find him here sittin' in an easy chair when you're old and gray
We're just a short lit fuse about to break loose no matter what the rules may say
Sitting in your car playing air guitar acting as if we were young
You turn and ask me why I don't wear a suit and tie
It's you that's really so high strung

Bridge

We are the wild ones
A G, A G A G CCC
We are the wild ones
